 - Git, Jira, Trello
-

EDUCATION

B.S., Computer Science | Hong Kong University of Science & Technology
2014-2018

EXPERIENCE

Full Stack Software Engineer | RightWeb | Loganholme, Australia
September 2022 – January 2024

- Developed complex web applications and services using PHP and Laravel, resulting in a 30% increase in website traffic.
- Implemented software design patterns and best practices, resulting in a 25% reduction in software issues.
- Worked as part of a 4-person team, and communicated in a professional and collegial way. This increased productivity by over 50%.
- Collaborated in an Agile environment with regular team meetings facilitated through Slack for communication, Jira for project management, and Google Meet for virtual meetings.

Full Stack Developer | Tech Alchemy | London, United Kingdom
February 2020 – May 2022

- Developed web applications and services using PHP, MySQL, and Laravel, resulting in a 20% increase in website traffic.
- Collaborated with cross-functional teams to ensure successful delivery of projects, resulting in a 25% increase in customer satisfaction.
- Successfully integrated with various third-party APIs including IPFS, Arweave, and Fleek to enhance platform functionality, data storage, and overall user experience.

Frontend Developer | JobsDB | Kent Ridge, Singapore
March 2019 – January 2020

- Translated designs and wireframes into high-quality code using Javascript frameworks including React, Vue and Angular.
- Worked with developers, designers, copywriters, and other cross-functional teams (CRO, Video, Marketing, etc..) to drive innovation and maximize conversions by 40%.
- Ensured the technical feasibility of UI/UX designs. This prevented 3,000+ of time being wasted making pointless designs.
